# COUNSELLOR REGISTER

The Society publishes an online register containing the name, membership number, and town/city of all Registrant members (Accredited, Accredited Professional, Senior Accredited, and Fellow).

If you wish to have more than these basic details displayed, please enter the information below.

The information I would like listed is as follows:

| | |
|---|---|
| Name | |
| Town/City (*where you will be practicing)* | |
| County (*where you will be practicing)* | |
| Telephone (*where clients can contact you)* | |
| Post Code *(where you will be practicing)* | |
| E-mail address | |
| Website address | |

If you do not have a practice address, then your location will be determined by your home address postcode. Members of the public will be shown how far they are from the postcode that you provide; your address will not be revealed to the public.

Once you have been provided with login details for the website, and awarded a Registrant grade, you will be able to complete your profile in full including information such as specialities and fees. Members who have a completed profile are more likely to be contacted by members of the public looking for a counsellor.

**I agree to the above information being made available on the "Find a Counsellor" section of the National Counselling Society website, and to telephone enquirers.**

**I agree that I am responsible for the information listed in my profile on the website, for the accuracy of information listed in my profile on the website, and that all details listed are a true and accurate reflection of my qualifications and experience.**

Signed: _____ Dated: ____/____/_____
